3 seconds ago. RFS - Real Flight Simulator - flight simulator planes for Android. The player can try yourself in the management of various aircraft carrying passengers. In addition to a large variety of aircraft, including large Airliners and single-engine aircraft for a few people, gamers expect a large number of real airports, and a realistic physical model of the behavior of air transport and the environment. Also, the developers did a great job on control, so the user has a large number of switches and other elements.
